

Hello,

Our apologies once again, but we need to reschedule the February 06, 2014 FRASC meeting on sustainable rangeland management. The new meeting date is Thursday, March 13, 2014. We hope this does not cause too much inconvenience – and we certainly hope to see you in March.

The focus of this meeting will be **sustainable working rangeland management in California**. In an effort to explore all aspects of sustainable rangelands in California, we have invited three professionals to get our discussion started. They are:

- **Pelayo Alvarez** – Director, California Rangeland Conservation Coalition
- **Ceci Dale-Cesmat** – State Rangeland Management Specialist, USDA – NRCS
- **Frank Dawley** – Owner, Big Bluff Ranch, Tehama County
- **Jack Hamby** – Associate Manager, California Desert District, Bureau of Land Management

We invite you to participate in a discussion and share with us your ideas and concerns about the sustainability of working rangelands in California. For background about the upcoming meeting, the assessment processes, or FRASC, please see our website: <http://frap.fire.ca.gov/frasc>

**What:** FRASC Quarterly Meeting: Sustainable Working Rangelands in California

**When:** Thursday, March 13, 2014  
9:00 - 12:00

**Where:** USFS Wildfire Conference and Training Center  
3237 Peacekeeper Way  
McClellan, CA ([map](#)) ([driving directions](#))

The meeting will also be available via webinar: [click here to register](#) or enter this link into your browser: <https://www2.gotomeeting.com/register/628083362>.

We hope you are able to attend and we look forward to hearing what you have to say. Please suggest this meeting to friends and colleagues you think may be interested. RSVPs to [kelly.larvie@fire.ca.gov](mailto:kelly.larvie@fire.ca.gov) are greatly appreciated.

See you there!

FRASC meetings take place on a quarterly basis and serve as a forum for participants to provide input on a broad array of issues affecting forests and rangelands across California. In addition to providing input into our next assessment your participation will help inform and improve collaboration on the management of forest and rangeland resources.
