Total acres to be changed 238.15 Acres

Description of area and comments:

Large development contiguous to existing LRA (unincorporated) lands and city of Santa Clarita. Some portions of land has been graded, culverts installed, but development has stalled, though aerial is dated, homes have been built in all the small parcels, large outlying portions of this Land has some watershed value, however, leaving these areas as SRA would create large Islands of SRA surrounded by LRA (city and county). The largest western portion has been graded but further development halted as of this date (March 2010) (no individual parcels exist in the parcel shapefile). Will require additional reviews as development continues.
